

*LexisNexis presents a complimentary CLE-eligible webinar*

## **ADR for Complex Claims:**

### **Choosing and Using the Most Effective Resolution Instruments**

August 25, 2016 | 2-3:35 pm. ET

Complex, high-stakes, multi-party legal disputes are like no other, with a variety of nuances and challenges just not seen in more day-to-day legal matters. If you are grappling with them you know this all too well. But do you know how best to leverage mediation and other alternative dispute resolution tools in cases involving multiple claimants, defendants, jurisdictions and issues?

As an award-winning mediator, arbitrator and special master, Hon. Marina Corodemus (Ret.) has decades of experience bringing complex claims to resolution. Before going into private practice Corodemus spent a decade as New Jersey's sole judge presiding over complex mass tort litigation.

Drawing on that rich experience, Corodemus has assembled a panel of seasoned veterans who will provide insights and best practices, using two categories of complex disputes as the backdrop: environmental contamination actions and pharmaceutical / medical device product liability claims.

Corodemus will moderate this 90-minute, CLE-eligible webinar, designed to enlighten anyone engaged in multi-faceted claims in practically any area of law.

#### **Complex Environmental Claims (60 minutes)**

- Who brings environmental lawsuits?
- Citizen suits v. governmental suits v. private individuals v. public interest
- How environmental suits differ from or are similar to other complex cases
- How do you defend on behalf of private industry?
- How do you defend on behalf of government entities?
- How does environmental law apply internationally?
- What type of damages can be sought, beyond money? What are natural resource damages? Federal or state concept?

- What role does Alternative Dispute Resolution play in environmental law suits?

### **Complex Drug & Medical Device Claims (30 minutes)**

- Where are these cases being brought—federal or state court?
- Has multi district litigation helped the plaintiff or defense?
- eDiscovery has dominated mass litigation. What is the most effective way to prepare and use eDiscovery?
- What role does Alternative Dispute Resolution play in complex litigation? Your particular experiences?
